

COVID-19

3 Questions

- 1. How to reduce the spread of COVID-19 ?**
 - how to reduce my chance of catching it
 - how to stop the spread (Reduce the R-number)
- 2. How to improve treatment of early COVID-19 – at home ?**
- 3. How to improve treatment of COVID-19 – in hospital ?**

COVID-19 Question 1

Question for every doctor that you meet:

I have heard about “Suppressed Immune System”

Are there ways to “***Enhance the Immune System***”

that may help to:

- reduce my chance of catching COVID-19 ?
- reduce the spread of COVID-19 ?

COVID-19

Question 2

Ask every doctor:

How can we improve the early treatment of COVID-19 – at home or in the community - to help reduce hospital admissions ?

COVID-19

Question 3

Ask every hospital doctor:

***How can we improve the
hospital treatment of COVID-19 ?***

COVID-19 Other ways ?

Governments worldwide have focussed on a single medical approach – *deliver a vaccine*

What if there are other ways ?

A few medical professionals have proposed additional ways, but they have been ignored

- Governments are fighting vaccine hesitancy
- Pharmaceutical industry – dirty tricks playbook
- Pressure by WHO
- Google & others - have major investments in the pharmaceutical industry
- Extreme pressure by Media to block discussion
- Fake News – Media have been very restrictive
- Pressure on doctors (threat to remove license to practice)
- Lack of understanding by some doctors

COVID-19 27 other products

27 products are - *more or less* - effective to help:

- **Reduce the spread of COVID-19**
- **Improve at-home treatment of early COVID-19**
- **Improve hospital treatment of severe COVID-19**

COVID-19 Beware !

Most medical advisors:

- do not understand much of this
- have been influenced by drug companies
- may depend on outside financial interests for their job
- may have been influenced by other financial interests

***Suggest that you check all “Conflicts Of Interest”
for every person giving you medical advice***

- £/\$ Billions are at stake !
- Stop the “Revolving Door” between Industry and Government
